Partition Diagrammatic Drawing

Product Introduction

This metal detector gate adopts Full Aluminum Frame and Highly Integrated Dual High-Brightness LED Host to check whether there is any metal items been hid in the body, such as metals, guns, controlled knives and so on. The max sensitivity reach up to 200 level, with remote control and simple software interface, much more easier for installation and maintenance.

General Specification

Sensitivity level: 100
Each zone sensitivity level: 200 (Adjustable)
Power consumption: 12 W
Working frequency :1~50 bands
Highest standard: Metal size ≥ 6 g
Vertical dimension: 2200x860x440mm
Vertical channel size: 2000x700mm
Customizable width : 700~1500mm
Working voltage: AC110V~240V 50/60Hz
Working environment temperature: $-40^{\circ}\text{C}\sim+85^{\circ}\text{C}$

Advanced Features

- **4.6.18.33 independent zones available to choose, Dual High-Brightness Red LED Display**
- Adjustable sensitivity of each detection zone, multi-alarm sounds to choose
- Operating frequency can be adjusted manually or automatically
- Detection technology: Even detection technology, no blind spot
- Internet technology: Remote upgrade system and remote control system
- Statistics: Record the pass and alarm numbers
- Query function: The system has real-time information query function

- Intelligent Standby: The system has intelligent standby operation alerts
- Detection speed: more than 40 people pass and detect in 1 minute
- Intelligent partition: Can change detection zones according customers' demands
- Can connect PC terminal that change specification of WTMD anytime, anywhere(optional)
- Have 4 kinds infrared mode: IR ON/IR OFF/Front group IR ON/Back group IR ON
- We integrated 72 application occasions in the program, can change all zones, sensitivity when you choose different occasion
- No harm to human body with heart pacemaker, pregnant women, magnetic floppy and recording tapes

Compliance

- CE compliance
- ISO9001 Quality Management System
- ISO14001 Environment Management System
- OHSAS18001 Occupational Health Management System

Applications

Airport, port, travelling check point

Conference, stadium, access control, court, visiting check point

power plant, factory, hotel, restaurant, entertainment, power venue, KTV, temple
